An 1800 number can instantly project a big company image for your established business. It can make you more accessible to your customers. When your customer knows the call is free, they are more likely to call and inquire about your product. Using a toll free 1800 number can also generate an immediate national or international presence. Even the smallest company having just 3 employees can make the same impression as a large Fortune 500 company.

Branding Your Company through Toll Free 1800 Number:

Toll Free is a number start from 1800 which can be organized on the web and is mingled with a dominant and specialized IVR. It is more economical than a normal toll free and gives you exciting qualities like call recording and support for after office hours.
